

Kids get hurt when they fall

- Always strap baby into pram/highchair.
- Don't use baby walkers - they can be dangerous.
- If you have to move away from your baby & they are on a change table/bed, place them on the floor.

Dogs can be cheeky

- Always watch children around animals.
- Make the family pet feel just as welcome as the new baby.

Keep cords out of baby's reach

- Cords on blinds & curtains may cause baby to choke or stop them from breathing.

Medicines, grog, petrol and other things can make baby sick!

- Put them up high, where little ones can't reach.

watch out for your new baby

It's up to you to keep bubba safe

ROYAL LIFE SAVING
WESTERN AUSTRALIA

Buckle up every child, every trip!

- A child car restraint, correctly fitted and suitable for baby's weight, size & age will keep them comfortable and safe on every trip.

Babies love to put everything in their mouth but small things can choke a baby

- Keep the floor clear of small things that can get caught in baby's throat & choose toys suitable for baby's age.

Keep watch around water

- Always stay with baby when they are in or near water. Baby can drown quickly and quietly.
- Don't leave older kids to watch baby in the bath.

Keep your cuppa away

- Baby may grab your cup and tip it over themselves.
- Put baby somewhere safe while you handle hot drinks & food.

Hot water burns like fire

- Always check baby's bath water. If its too hot it may burn your baby.
- The bath water should be no more than 37°C.

Watch kids around fires

- Open fires, stoves or other heaters are attractive to babies. Stop baby from getting too close as they may get burnt.

PROVIDE YOUR FEEDBACK TO WIN A COLES/MYER GIFT CARD!

Tell us how we can improve our resources via a quick survey. Simply scan the QR code with your smartphone to begin.

Complete the 'optional extra questions' to go into the draw to win a \$25 Coles/Myer gift card.
